

*The Calgary Horticultural Society's*

# 2009 *Perennial of the Year*

*Calamagrostis x acutiflora* 'Karl Foerster'  
Feather Reed Grass

**Zone:** 3 - 8

**Exposure:** *Full Sun*

**Height:** 90cm -120 cm

**Appearance:** *Pink feathery seed heads in summer*

**Plant Characteristics:**

- *Good form*
- *Sterile, will not self-sow*
- *Use in borders or containers*
- *Deer resistant*
- *Provides winter interest*

*This is an attractive, low maintenance ornamental grass. Deep green shiny foliage appears in early spring and lasts until late fall. The flower stems grow upright and stand well throughout the summer and winter.*
