

Common Name: Silver King Sage
Botanical Name: (*Artemisia ludoviciana*)

Height: 24 - 36" (61 - 91 cm)
Width 36 - 48" (91 - 122 cm)
Exposure: Full Sun
Zone: 3
Bloom Time: Inconspicuous blooms
Description: Slender, upright, individual stalks. Narrow, hairy, silver foliage provides excellent contrast to darker coloured plants. Spreads by rhizomes but is easily kept in check. Drought tolerant, deer resistant.
